03. INVESTMENT DETAILS

¹Investment details

Cost basis:

- **Book cost (BK):** The cost of a security adjusted by any corporate actions, reinvested dividends, and return of capital.
- **Historical Market value (HMV):** The historical market value of the security is used to estimate some or all of its book cost.
- **Historical Market value date (HMVD):** The market value of the security on October 30, 2015 was used to estimate some or all of its book cost.
- **Non-determinable (ND):** The security is not included in your % portfolio calculation because the cost basis cannot be determined.

Quantity (Qty.): The quantity for each security may include fractional shares which are shown in decimals.

Segregated (Segr.): fully paid securities that require no reimbursement to Questrade.

Position cost (Pos. cost): the cost of the position.

Market price (Mkt. price)/Market value (Mkt. value): the price at which a security is trading and could presumably be purchased or sold.

Market value may include accrued interest. A letter to the right of the market value means: E: we have estimated the market value of the security

N: the market value of the security cannot be determined

For an explanation of market price, including illiquid or non-exchange traded securities, please refer to the disclosures at the end of this statement.

In RESP accounts, the market value of any securities you own in U.S. dollars are converted and displayed in Canadian dollars.

P&L: the market value minus the position cost.

% portfolio (% port.): the value of the security divided by the value of all owned positions in your account. Shorted positions are not included in this calculation.
